All services are scheduled through our office at 942 Coley Dr. Volunteers select the types of services they wish to offer, the days and times that work best for their life styles. Kindness coordinates these with the needs of our screened and qualified clients.

We do ask all new volunteers to attend an orientation to learn how and what to do to best benefit our clients and protect themselves.

Kindness has a history of being a safe and reliable resource and has earned the respect of other non profit and for-profit agencies serving seniors and adults with disabilities. *What we do saves lives, improves the quality of our clients' lives and preserves and extends their independence.*

Talk to us about volunteering, you'll make new friends and feel great about helping our community!
